

The background of the slide is a light gray gradient with several realistic water droplets of various sizes scattered across it. The droplets have highlights and shadows, giving them a three-dimensional appearance. The text is centered in the middle of the slide.

We have interesting topics
this year.

- The Stone Age to Iron Age
 - Ancient Egyptians
 - Why do people live near volcanoes?
 - Who lives in Antarctica?
 - Are all settlements the same?
- 

Transition from Key Stage 1 to Key Stage 2

- We are only a couple of metres away from Year 2 but the change is a big step.
- Routines are different and children can take a little while to settle.
- There is so much new subject knowledge which can take a little while to embed.
- We encourage the children to become independent. This works well in the classroom but also means that they are responsible for reading books, spelling etc.

We use many websites in school.
We will send home their log in sheets so they can access these sites.
